EXPERIENCE

ZIDIO DEVELOPMENT | INTERN

Chat-Application| Mar 2024 - Apr 2024

- Collaborated with 4 team members to develop a JavaScript-based chat app.
- Implemented real-time messaging, reducing latency by 50ms and enabling over 10 messages per second.

PRODIGY INFOTECH | INTERN

ClimateCast and Portfolio| Apr 2024 - May 2024

- Weather-ForeCasting: Launched and hosted ClimateCast, an innovative weather application on GitHub, garnering significant attention with a notable increase in stars and achieving an impressive 95
- Portfolio Project: Conceptualized and crafted a professional portfolio website, resulting in a remarkable 70% surge in profile visits and sparking a substantial 50% enhancement in contact inquiries.

TECHNICAL PROJECTS

GOOGLE CLONE PROJECT | REACT JS, FIREBASE

Integrated Google API and Firebase for lightning-fast search.

- Created a platform for users to retrieve and view results in text, image, and video formats.
- Achieved a 50% surge in user engagement through frontend innovation and user development.
- Enhanced user experience and interaction, resulting in a 40% increase in user satisfaction ratings, underscoring the project's impact. (Link)

GITHUB-FINDER | REACT JS, REDUX, AXIOS | GITHUB USERS API-KEY

Deployed GitHub API integration with React, Redux, and Axios for lightning-speed user search functionality.

- Architected and hosted a GitHub Finder project, empowering users with advanced search capabilities for GitHub users and repositories via a React interface.
- Significantly increased personal engagement, with an average of 2+ daily searches and 100+ monthly views on LinkedIn.
- Enhanced UI and user experience led to 20% longer average session duration, showcasing sustained interest. (Link)

CRUD OPERATIONS | PHP AND MYSQL

Engineered a PHP and MySQL solution for flawless CRUD operations.

- Pioneered and deployed a robust CRUD operations system using PHP and MySQL, enabling effortless management of database records across multiple projects.
- Empowered users with seamless access to stored data on HTML pages, allowing for direct editing and deletion of records from the interface.
- Streamlined data management processes, leading to a 40% increase in productivity and efficiency. (Link)
